

Hello Oily Family,

How are you and your family doing? There's a lot going on right now in the world and I pray you are doing your best to make it through these difficult times. Two weeks ago, I was so grateful to have a chance to view something positive. I watched the Young Living Virtual International Grand Convention! I had a small gathering with friends here at my home on opening day.

Each year I attend, I'm even more blown away by this company. The generosity, love, stewardship and science behind all of our members, corporate and our wonderful Young Living products is amazing. If you have had the opportunity to attend or not, I would love to share some of the highlights from this year's event.

One of my favorite highlights of each years convention, besides the new products revealed, is the update we get from the Young Living Foundation. The impact of Young Living and it's generous members is powerful. One of the things that makes a difference in someone's success, is opportunity.

The YL Foundation creates just that with their 3 pillars:

Education- Through leadership development, skills training and the funding of schools

Enterprise- Developing enterprise by investing in small businesses to break the cycle of generational poverty.

Ending Exploitation- Stopping the abuse and human trafficking of the world's most vulnerable and exploited.

They accomplish this goal by partnering with incredible people and organizations around the world. How can you support the foundation monthly? Round up! Each month when you make your order simply check the box to round up your order total to the next dollar amount. 100% of your proceeds go the foundation supported programs. All administrative fees are covered by YL corporate!

Breathe in the sweet, light, cinnamon-like aroma of Cassia essential oil and let its comforting and cozy characteristics cast away your worries and create a sense of peace and serenity. Its grounding and balancing aroma inspires emotional release. Use during times of doubt, to center yourself, to encourage inner connection, and to develop positive self-awareness.

Cassia essential oil has been used for centuries. In the Bible's Old Testament, Cassia was mentioned as a holy anointing oil and a key ingredient in temple incense. It was also used in ancient Egypt and China. It is listed as one of the 50 fundamental herbs of Chinese tradition.

The Cinnamomum cassia tree, from which we get Cassia essential oil, is from the same plant family as cinnamon—so they're similar, but each quite unique.

I'm in love with our two new diffusers. Young Living's exclusive Artisan Diffusers are created to be statement pieces in your home, incorporating fluid, natural shapes, and soft, cloud-like hues. Each piece is handcrafted by a master glass blower from the south of china along the Pearl Delta region. These handmade diffusers combine traditional practices with modern technology. Each artisan is trained to know the molten glass intimately in order to work it into a final masterpiece. Young Living is proud to bring these works of art from master craftsmen to your home.
