**Step 5: Seed**

“Thought equals frequency. Essential oils absorb our thoughts. They are registered in the oils as intent. The intent is directed energy.

When you apply an intent-energized oil on your feet, it can saturate all of your cells within 60 seconds, stimulating creative thinking and pushing negative energy out of the cells, thus increasing the frequencies of the cells throughout the body.

In that uplifted state you can create a new desire to be better tomorrow. You have no limitations but those you choose to accept.”
